

Battle Rhythm - Daily and Periodic Tasks Performed in GCSS-Army

Transaction Codes (T-Codes) Used Regularly in the GCSS-Army Portal

SBWP	Use this transaction (Business Workplace) to communicate with others working in GCSS-Army. Also, send and receive work objects awaiting action from others or to inform them of completed actions by you.
/iSDFPS/LSP1	Use this transaction to view organizational and logistical information for a Force Element (FE)/Organization, including organizational structure and both authorized and assigned material and personnel. Some process can begin from the LSP1 "Workbench."
/iSDFPS/DiSP_MAT_SiT	Use this transaction to display material assigned to units and sections, and also to print primary and sub hand receipts.
MiGO (311)	Use this transaction to issue property to unit subhand receipt holders.
/iSDFPS/MAT_ASSiGN	Use this transaction to assign stock and provisions to an individual in your unit, and to print subhand receipts for those individuals.
ZMi21	Use this transaction to print count sheets containing quantities, serial numbers, etc. for use when conducting Sensitive Items inventories, Cyclic inventories, 100% Command Directed inventories.
iQ09	Use this transaction to conduct research by serial number to identify the FE/SLoc for a particular piece of property
MM03	Use this transaction to view catalog data for material. Search by material number (NIIN), Material Planning Object (MPO) related to a Line Item Number (LIN), or Description.
MB21	Use this transaction to request provisions (MtlRes) for your unit.

Review Reservations:

- Use **MB25** to view a list of reservations (MtlRes/OrdRes) for your provisions storage area.
- Use **MD04** to view the on-hand balance, open reservations (MtlRes/OrdRes), and open orders for a material.
- Use **ME5A** to view a list of purchase requisitions (PR). You can see reservations that are parked or in release strategy, and those released from either or both. You can also see dollar values for the PRs.

ZPROSTAT	Use this transaction to view a list of Open Purchase Orders (PO/STO) and details about specific POs.
VL06i	Use this transaction to view items awaiting pick-up at the SSA.
AiT	Use the AiT screen on the desktop monitor or AiT Handheld when picking up supplies at the SSA.
AiT VL06i }	Use either of these when receiving material at the SSA to do a Post Goods Receipt (PGR).
MiGO (221)	Use this transaction to issue provisions from your Provisions Storage Location (SLoc) to a Reservation.

Manage Components of End Items:

- ZPRNTCOMPHR** Use this transaction to print documents for component hand receipts/inventory listings.
- iW31** Use this transaction to create a PB01 work order that is used to document component shortages.
- iWBK** Use this transaction to display and print open work order shortage lists and access iW32.
- iW32** Use this transaction to change a Property Book (PB01) work order. When you release the work order it creates a reservation (OrdRes) for those materials set to immediately.

MiGO (261)	Use this transaction to issue components to the work order.
